CERTIFICATE

Inbuilt mechanism for promoting Social and Emotional Learning (SEL)

This is to certify that Aggarwal College Ballabgarh has established a structured and inbuilt mechanism for promoting Social and Emotional Learning (SEL) among students, faculty, and staff, in alignment with institutional objectives and regulatory requirements.

The institution has developed a comprehensive framework that integrates academic, co-curricular, and student support systems to ensure the holistic development and well-being of its stakeholders. The college actively promotes social learning through its National Service Scheme (NSS) unit, various cultural and sports activities, and value-based programs that encourage teamwork, leadership, social responsibility, and interpersonal skills among students.

To address emotional well-being, the institution has put a counselling support mechanism wherein qualified counsellors are engaged from time to time to provide guidance related to stress management, academic pressure, anxiety, and other personal challenges. In addition, the college follows a mentoring system under which faculty members provide continuous academic and personal support to students, thereby fostering emotional stability and confidence.

Further, the institution has constituted a Grievance Redressal Committee to ensure that concerns and issues of students are addressed in a fair, transparent, and timely manner. This mechanism provides a safe and supportive platform for students to express their concerns and seek appropriate resolution.

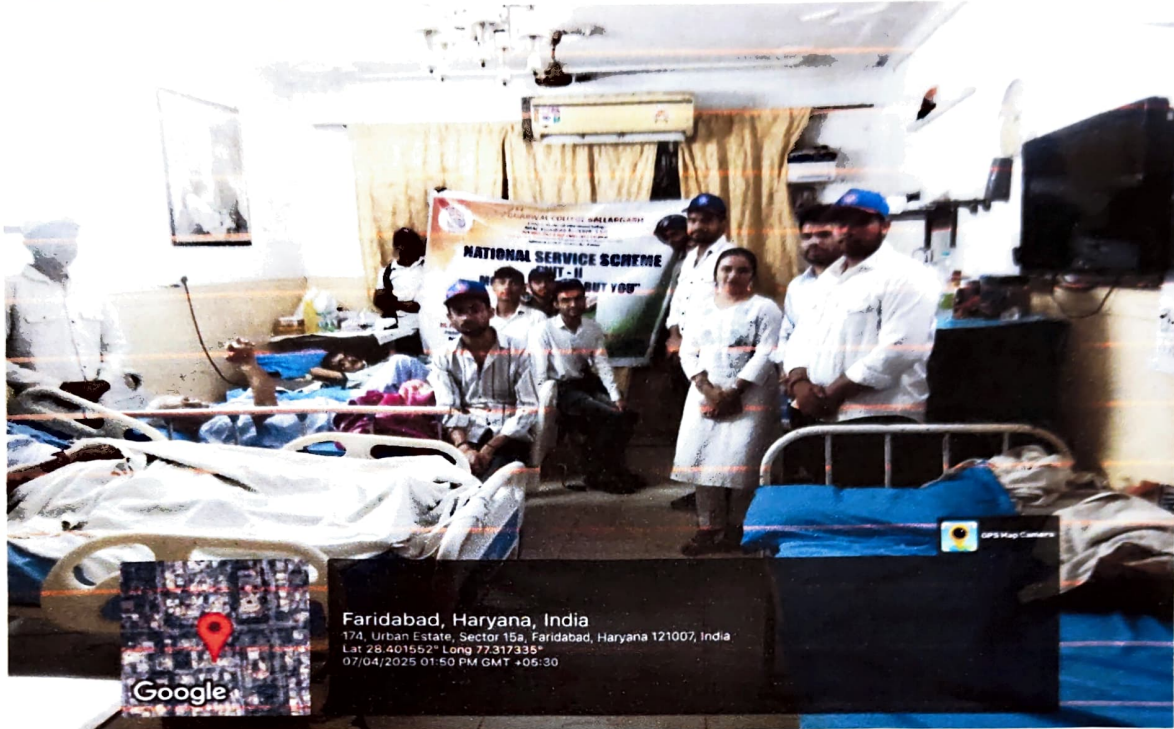

Through the integration of NSS activities, counselling services, mentoring, and grievance redressal mechanisms, the college ensures the development of emotional maturity, social awareness, and a positive learning environment within the campus. The system is regularly monitored and strengthened for continuous improvement in student welfare and institutional effectiveness.
